PROFESSIONAL EXPERIENCE

DELL TECHNOLOGIES, Round Rock, TX

February 2022 – August 2023

Datacenter Specialist

Collaborated with multiple experts such as Account Managers, Engineers, & Partners to deliver hardware and software solutions that range from server, storage, networking, and Security while configuring everything from the motherboard of a server infrastructure all the way to a cloud infrastructure. Delivered these solutions to large enterprises, medium businesses, and all the way to smaller industries. Educated clients, end users and liaisons on datacenter environment and functions.

- Partnered with the sales team to help generate business & close deals. Partnered with sales team to provide technical expertise at presentation to a national scale customer with ~ 30K employees on the cost benefits to moving to the Dell cloud platform (APEX).
- Liaised with Microsoft & VMware to customize cloud integration and leveraged services for end-to-end assistance for portfolio of 40 national and global clients.
- Tracked developing trends while staying up to date with current technology in the Data Center and suggested ways that we can help innovate the environment of customers.
- Consulted on and configured ideal devices including precision matched CPU, memory, hard drive, and network cables to obtain a perfect fit for clients. Configured 12 nodes and allocated in a clustered datacenter with team of engineers to efficiently deploy the best nodes taking into account dozens of customer specs.
- Assembled and improved roadmaps for equipment deployment projects for all 40 accounts on time.
- Implemented cloud-based solutions using private and public cloud platforms.
- Involved and partnered with ESG (Environmental Social Governance) on each sales proposal for intentional efforts to address the environment impact of product deployment.

BLINK, White Plains, NY

October 2019 – May 2021

Front Desk Assistant

Assisted members, maintained facility, customer service at check-in, problem resolution, processed payments.

SKYE-BANK, Conakry, Guinea?

June 2018 – July 2018

Risk Analyst Intern

Monitored markets and credit risks daily. Prepared reports to compile data requested to support risk management.

- Collected, organized and input market and risk report data into a csv file for further analysis.
- Analyzed data using Excel and various software tools, and then compiled those sources in a structured manner and forwarding it to higher ups.
